Lia Stein

Front-End Web Developer • lia.a.stein@gmail.com • lia.codes

WHAT I CAN DO

- ✤ CSS3
- ✤ jQuery
- ✤ PHP
- ✤ Scss

- ✤ HTML5
- ✤ WordPress
- ✤ Custom themes, post types, fields

- ✤ JavaScript
- ✤ Github
- ✤ Browser and QA testing
- ✤ Emails

- ✤ Design background
- ✤ UI/UX
- ✤ Wireframing

- ✤ Works well with others, dedicated, empathetic, problem solver, patient

WHAT I'VE DONE

Education

Associates of Applied Science @ Cincinnati State (2014) - Major: Graphic Design

Experience

Front-End Developer @ Darkspire Media
Jul '18 - Present
I create WordPress sites focused on the customer, making the web experience easy and customizable even for non tech savvy clients. I always create a custom theme for each project with custom fields (ACF). My motto is "nothing hardcoded", meaning, completely personalized sites that give full control to the client.

• themeengine.com

Front-End Developer @ Push Digital
Dec '17 - Jun '18
As the company's sole developer I was responsible for time management, coordinating with project managers, developing and deploying websites, including DNS management and securing sites with SSL. I created WordPress sites for a wide variety of clients from non profits, to small companies, to large political campaigns.
• Marcorubio.com   • Cindyhydesmith.com
• Clawsonfargnoli.com

Developer and Designer @ EMCOR
Nov '14 - Nov '17
I oversaw all graphic and web work for two branches that served a nationwide area. Using the company's CMS platform I created custom graphics and websites to assist customers with their building automation. I worked directly with customers and engineers to ensure every project was completed on time and above expectations.

Front-End Developer @ Cinmar/Frontgate
Aug '14 - Oct '14
I developed custom landing pages and marketing emails for Frongate's e-commerce website using various languages and tools like JavaScript, WordPress, WebSphere, Bootstrap, Salesforce, and Scene7.

ABOUT ME

I am a front-end web developer with a unique perspective on development because of my background in design. I am passionate about the web and all the great things you can make on it. I'm almost always glued to my computer for either work or play, but I also love my cats, drawing, and cooking.
